

The Compass Rose

The Compass Rose is a printable set that the children can use to learn the cardinal directions of a compass.

Look through all the pages carefully before printing this set. There are a variety of sizes, color, black & white, work cards, and control cards. Decide which size, color and format you wish to use - and then print those pages only.

Children who are non-writers

The labels below can be printed, cut out, and used with the blank work cards.

Children who are writers

Laminate the work cards **or** insert them into plastic page protectors. The child can use Dry-Erase markers to fill in the missing labels. When finished the labels can be erased with a soft cloth for the next child to use.

Printable labels to be used with the blank work cards
